Work History

Front End Developer

SkyQ Technologies Pvt Ltd, Mumbai

Working as front-end developer. My job is to design web pages. Performing updates for live websites. Creating the user interface and user experience of websites and web applications. Structuring web contents, styling web pages, ensuring that websites and applications look

and function well on various devices and screen sizes, understanding techniques to improve website loading times and overall performance is important for delivering a positive user experience. I ensure that their code works consistency across different web browsers and versions.

Q & A Expert

Chegg India, New Delhi

To Provide Accurate and helpful responses to a wide range of inquiries. The ability to quickly and efficiently research and find credible sources inessential. To provide complex information in a clear and understandable manner. This includes written communication skills. When answering questions, it's important to carefully read the question to fully understand what is being asked, this helps ensure that your response addresses the specific inquiry. It's like Customer Service Skills -if you're providing Q & A services in a professional context, strong customer service skills can be valuable. This includes being responsive, courteous, and helpful to those seeking answers.
